

Bodysafe - Body Bag Product

Bodysafe Body Bags are leak resistant which is achieved by installing the zipper on top of the bag above the fluid level and heat welding the perimeter edges. The light grey colour of the bag aids in the concealment of discoloured fluids in the bag.

- Description: Body Safe seam sealed leak resistant body bag
- Size: Varies according to model
- Material: 230GSM Heavy duty woven polyethylene fabric
- Standard Colour: Woven 1100d 14 x 14 HDPE UV stabilized finish
- Zipper: Grey
- Thread: Grey No.3 heavy duty polyester spiral zipper with metal slider and pull tab
- Document Holders: No. 36 polyester cotton spun thread
- Security Locks: A5 self adhesive sealable pouches
Sequentially numbered security seals that lock the zipper to the closed end of the zipper (optional)

Adhesive Document Holder
